

VOLUNTARY RECALL NOTICE

March 4th, 2019

Re: Voluntary recall Sunset LBS (Indica) 3,5 g – Lot SUN8213TSB

As a precautionary measure, Canopy Growth is voluntarily recalling the LBS Sunset 3,5 g lot number SUN8213TSB. **Please note that this is not a product quality issue, but a labelling error.** The percentage of THCA (the molecule that becomes both THC and psychoactive once the dried flower is combusted) printed on the label show a negligible difference from what the actual concentrations are. The concentration of THC (18% - 28%) written on the packaging is still valid. Furthermore, a negligible difference in the concentrations of CBD is also wrongfully printed on the label. This recall does not affect the security or health of the consumer who purchased the recalled product.

Customers who purchased the product from this lot can return it to their point of purchase.

This voluntary recall applies to Dried Cannabis LBS Sunset (Indica) Whole Flower Cannabis, Net weight 3.5 g, Lot SUN8213TSB, Packaged on: 2019-JA-10 only. All other Canopy Growth cannabis products already on the market are not impacted.

Thank you,
CANOPY GROWTH
